100% WIRELESS

Max. 20h

Advanced battery technology and control let you set the battery runtime to up to 20 hours. You can be sure that your Astera fixture won't run out of juice before your production is finished.

Wireless DMX

Each of our lights has a CRMX module from LumenRadio built in, offering you the most reliable DMX technology on the market.

App

AsteraApp offers intuitive and fast control of complex lighting setups and is also used to change DMX settings of the lights as well as monitor them out of a distance.

IP65

All Astera fixtures come in IP65 waterproof housings to make sure you can use them outdoors without worries.

WHAT MAKES OUR LIGHTS THE NUMBER ONE CHOICE?

Talkback+

Detect all available lights, set them up, check their status, configure DMX addresses and DMX profiles.

Seamless Runtime

Set the length of your event and be sure that your lights won't run out while still getting the maximum brightness.

TruColor Calibration

Individually calibrated lights lead to 100% color consistency and exact color reproduction of color temperatures and standard filter gels.

Effects

Quickly create programs out of colors and effects. Turn multiple programs and lights into scenes.

Flicker Free

Scrambled PWM technology to avoid flickering when filming.

Green/Magenta correction

Adjust green/magenta during content creation to reduce post-production work.

Scheduled Stand-by

Switch lights into power-saving standby and schedule them to wake up when the event starts.

Dynamic Power-boost

This exclusive feature makes the light able to display the maximum brightness at all time and intensify non-white colors.

Emergency Light

Switches to white light when AC power is cut to keep your event save.

Anti-theft

The lights give visual and audible alarm and send a notification to the AsteraApp if they are being moved during an event.

DJ Feature

Auto BPM analyzes the beat and matches programs to it, flash buttons can trigger special effects while being held down.

Other features

The AsteraApp is packed with many additional items and new features are frequently added via software updates.

ASTERA APP

The most powerful lighting control App for film and event lighting

The AsteraApp is the result of 10 years of development and specifically designed for fast and efficient temporary light setups. It is much more than a lighting control app as it also does all the setup that would usually be done on the light itself and enables many new features that cannot be found in any other light. All in all, it is a huge time-saver when setting up, monitoring or controlling lights.

CREATIVITY AT YOUR FINGERTIPS

Create complex animated effects with thousands of pixels that stretch over multiple lights. The AsteraApp offers an intuitive user interface with preinstalled and fully customizable programs and effects.

SMART DIAGNOSING AND EDITING

Easily setup and monitor your lights from the palm of your hand, no matter how complex your production may be. Powerful tools let you quickly adjust settings of multiple lights, e.g. when preparing them for DMX usage.

COMPLEX CUSTOMIZABLE EFFECTS

Choose from a wide range of preinstalled, highly customizable effects. Have all lights react simultaneously without delay or stretch effects over multiple lights. Your lights will remember and repeat these effects without requiring a constant wireless link.

..and more functions:

SCENES

WAREHOUSING

SCHEDULED STAND-BY

BACKUP & HANDOVER

AUTO-UPDATES

WIDE APPLICATION RANGE

The AsteraApp is designed for beginners and professional operators alike. It is suitable for event and film lighting scenarios no matter if you control just one light or a complex setup with different groups of hundreds of lights.

PRECISE COLOR INPUT METHODS

AsteraApp offers several useful tools to select colors so you are covered no matter if you want to mix your own color or input an exact RGB value or x, y coordinate. Thanks to Astera's industry-leading digital calibration, the fixtures are able to reproduce the exact color selected in the app.

GROUP YOUR LIGHTS

AsteraApp can control individual lights but is also able to create a total of 256 groups each with multiple lights. To increase your possibilities even further, groups can have multiple positions/addresses.

Watch our tutorials for more information:

www.astera-led.com/academy

BLUETOOTH BRIDGE

Connect directly an AsteraBox or newer Astera lights via Bluetooth. The connected device will revert AsteraApp commands to other Astera lights via UHF band. The new ART7-WIFI can also connect via WIFI as an alternative to Bluetooth.

Astera Light* as BluetoothBridge

*BluetoothBridge works with Titan Tube BTB, Helios Tube BTB, Hyperion Tube BTB, AX1-BTB, AX2-BTB, AX5-BTB, AX9, PixelBrick, NYX Bulb, HydraPanel, LeoFresnel and PlutoFresnel

Astera Box as BluetoothBridge

ASTERA BOX

ASTERA BOX WIFI

AsteraBox is the interface between lights and controller. It works as Bluetooth Bridge that can be carried on your belt thanks to its built-in battery. It can also be connected to a DMX desk to transmit wireless DMX data to all Astera lights and other lights with CRMX receiver.

SPECIFICATIONS

*Minimum requirement for Astera App device: Bluetooth 4.2

THE ASTERA SYSTEM

Set up Lights

Set up your lights conveniently out of the distance. Adjust DMX settings on one or several lights. After your job, do a master reset.

Monitor Lights

Check your lights while operating them. View battery status, settings, targeted lights and get informed if a light is being moved.

Control Lights

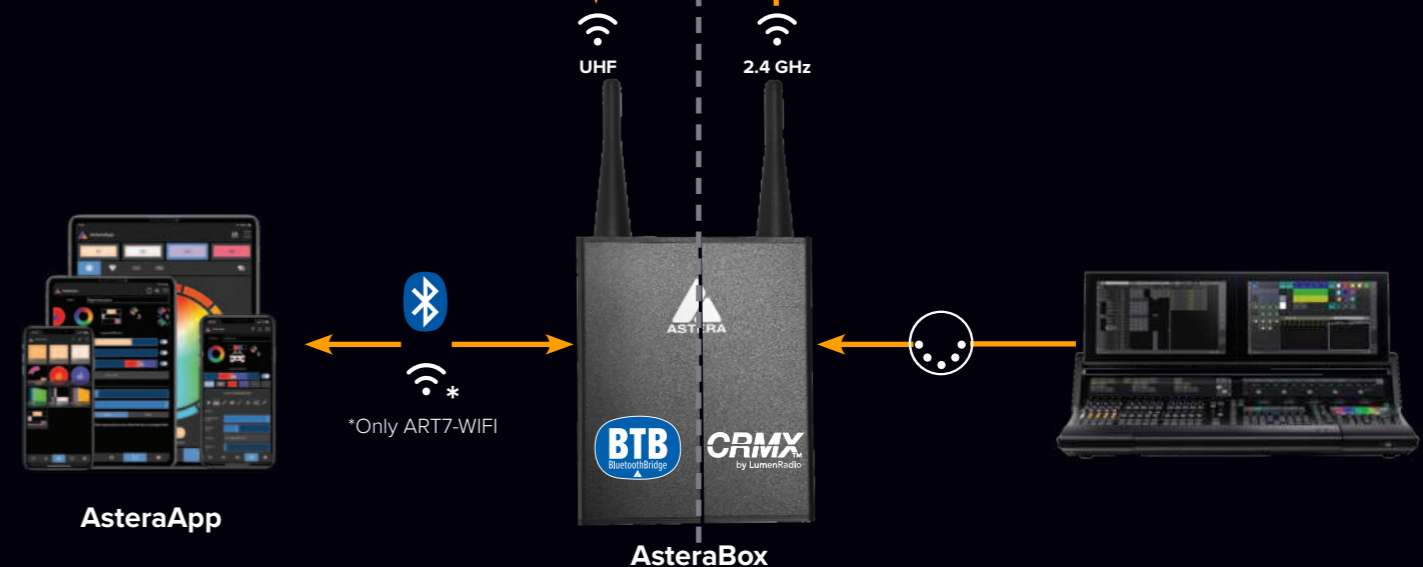

Send effects and colors to your lights. Choose which lights you want to target. Save programs for quick launch later.

Wireless DMX

The AsteraBox works as a wireless DMX transmitter with CRMX technology, just connect it with the included XLR adapter.

Compatible

Astera Lights can be controlled together by CRMX and W-DMX (limited compatibility) so you can use them together with other wireless lights.

TITAN LED ENGINE

The heart of the Titan LED engine is a revolutionary algorithm which generates an individual calibration for each light after measuring its photometrics during Astera's manufacturing process.

This not only leads to accurate colors and total consistency between fixtures but also optimizes the output for high CRI and long battery runtime, no matter if displaying whites or highly saturated colors.

Temperature compensation during operation constantly measures the temperature of each LED chip and adjusts the intensity of the red, green, blue, mint and amber LEDs accordingly to maintain an even output.

With this technology the Titan LED engine can reproduce precise color temperatures, RGB values and colors defined by x, y coordinates from the AsteraApp and DMX consoles.

To ensure a high level of precision, selected Service Centers can re-calibrate the LEDs after a long runtime if needed.

RUNTIME EXTENDER

RuntimeExtender is a battery plate to connect standard camera batteries to many Astera lights. This enables you to extend your production and work without worries when shooting films or lighting events. The RuntimeExtender supports a wide range of Astera products.

ACCESSORIES

included
HexConnect
AX-HCN
Bolt with Hexagon shape for mounting RuntimeExtender via SuperClamp

included
BrickConnect
PB15-BCN
Connect two RuntimeExtender back-to-back so that they can be mounted with only one SuperClamp

KIT FOR 4
414 x 335 x 183 mm
16.31 x 13.19 x 7.2 inches

8.46 kg / 18.65 lbs (full weight) REX1-VM-KIT-4
8.35 kg / 18.41 lbs (full weight) REX1-GM-KIT-4

Contains
4x RuntimeExtender (REX1-VM / -GM)
4x HexConnect (AX-HCN)
4x Power/Data Combination Cable (1.5 m / 5 ft) (PWB-CAB-1.5)
8x Waterproof Protection Cover (PB15-PLG)

4x BrickConnect (PB15-BCN)
4x SuperClamp (third party article)

SPECIFICATIONS

Order Code	REX1-VM (V-Mount)	REX1-GM (Gold Mount)
Battery Voltage	14.4 VDC or 26 VDC	
Battery Runtime	Dependant on third party battery used and type of fixture	
Battery Runtime max. Brightness	Dependant on third party battery used and type of fixture	
DC Output on DC Barrel Connectors	24 VDC - 100 W combined on two outputs	
DC Output on XLR	Direct passthrough from attached battery	
DC Connectors	2 x 5.5 mm x 2.1 mm / 1 x 3-Pin XLR	
AC Input	N/A	
Housing Material	Polycarbonate & Metal	
IP Rating	IP20	
Ambient Operating Temperature	0 - 40 °C / 32 - 104 °F	
Weight	617 g / 1.36 lb	580 g / 1.28 lb

IP44

LUNA BULB

SET THE MOOD, SHAPE EMOTIONS

LunaBulb looks traditional but functions like a professional luminaire, meeting filmmakers' needs for on-camera practicals and offering endless creative possibilities without disrupting event planners. It delivers perfect skin tones and wireless DMX controls, suitable for intimate gatherings and grand events alike. Control it easily via your smart device, remote, or console. Let your creativity shine wherever there's a lamp socket.

4.25 W RGBMA

Classic to Slim Look

Choose between a classic and diffused look or a slim and brighter hotspot.

SPECIFICATIONS

Order Code	FP7-E26 / FP7-E27 / FP7-B22
LED Engine (colors)	Titan LED Engine (RGBMintAmber)

HYDRAPANEL

- Max. 20h
- App
- Wireless DMX
- IP65

Beam shaping with six included light modifiers and a large range of mounting options make HydraPanel more flexible than any other product in its class. The full-spectrum Titan LED Engine generates an impressive 1300 Lumen output while running on battery power for 1:45h. All packed into a solid watertight housing of just 600g (1.3lb) weight and 166mm (6.5") length.

17W RGBMA

WIRELESS AND WIRED DMX

Built-in CRMX module and wired DMX via Astera PowerBox

COLD SHOE

Add third-party accessories and mount on cameras

COMBINE UP TO 4 PANELS

Individual control over six segments per panel

NEW CONTROL PANEL

Touch Slider for faster setting of colors, CCT, brightness

TUBES. FOR EVENTS. FOR FILM. FOR BOTH.

HELIOS TUBE

TITAN TUBE

HYPERION TUBE

Designed for Film/Broadcasting lighting and the highest performance. All 3 tubes are optimized for ultra-high CRI/TLCI and peak brightness. In addition to wireless power and control, they can be wired with power and data through a single cable.

PIXEL TUBE

An affordable yet very powerful battery LED tube for stage, event and entertainment lighting. It can be used on stages, around event sites and to create stunning lighting effects. A highly creative device that offers an infinite range of possibilities.

THE NEW TUBES - WITH BLUETOOTH BRIDGE

IDENTIFY TUBES WITH BLUETOOTH BRIDGE

BTB-enabled Titan & Helios Tubes are marked with a BTB Logo.

Our new Titan Tubes and Helios Tubes contain Bluetooth Bridge, a technology that Astera has been integrating into lights such as NYX Bulb, PixelBrick and AX9. You can connect your phone or tablet directly to the tube and use it to control additional Astera lights. An AsteraBox is not needed anymore for App control. Additional information on page 5.

PIXEL BRICK

Say hello to our next-generation multi-purpose light. In addition to being a battery-powered uplight and PAR with 5 different beam options, multiple PixelBricks can be connected to form clusters and shapes. With about 10cm edge length and 1kg weight, it is small and lightweight while still featuring a powerful output of high-quality light. The PixelBrick can be used for many stage, film and TV applications.

PB15-BTLT

BrickBase

BasePlate to support PixelBrick shapes, can be placed on floor or attached to truss tops.
PB15-BBSE

BrickDome

Create an evenly illuminated pixel dome or remove the 120° filter for a wide-angle soft light.
PB15-BDM

included

FloodFilter

Insert filter into light to get a 32° beam.
PB15-FF

included

BeamSoftener

Insert filter to mix colors better and get a softer 17° beam.
PB15-BSO

StealthCover

Gives a black surface so that it can blend into dark environments
PB15-SC

AX5's Big Brother – Twice as bright!

The AX9 utilizes the AX5's successful 3-in-1 concept which allows it to be used as wireless light and elegant uplight as well as a wired PAR light for longer or bigger installations. This makes it an extremely cost-efficient light and keeps your investment to a minimum. The AX9 packs extreme brightness in a compact and light housing while still giving you industry-leading colors and white tones thanks to its Titan LED Engine.

AX9 ACCESSORIES

Flex Cover White
Wrap around the AX9 to turn it into an elegant uplight.
AX9-FLXCVR-WT

Flex Cover Mirror
Wrap around the AX9 to turn it into an elegant uplight.
AX9-FLXCVR-MIR

FloodFilter 32°
Insert filter into light to get a 32° beam.
AX9-FF

WallwashFilter 17°x46°
Insert filter into light to get an elliptical 17° x 46° beam.
AX9-WWF

RotatableFilter 17°x46°
Filter with elliptical 17° x 46° beam that can be turned around while inserted into the light.
AX9-ROTAD

EggCrate
Cuts off spill light around the beam and avoids glare.
AX9-EGC

AX5 ACCESSORIES

Flex Cover White
Wrap around the AX5 to turn it into an elegant uplight.
AX5-FLXCVR-WT

Flex Cover Mirror
Wrap around the AX5 to turn it into an elegant uplight.
AX5-FLXCVR-MIR

Volcano Cover White
Slide the volcano cover over an AX5 to give it a clean and classy look.
AX5-VULCVR-WT

FloodFilter 32°
Insert filter into light to get a 32° beam.
AX5-FF

WallwashFilter 17°x46°
Insert filter into light to get an elliptical 17° x 46° beam.
AX5-WWF

RotatableFilter 17°x46°
Filter with elliptical 17° x 46° beam that can be turned around while inserted into the light.
AX5-ROTAD

Diffuser Dome
Use as softlight projector or insert the included 120° filter to create a stunning light ball.
AX5-DDM

Snoot
Built-in beam shaping tool to narrow and define the beam. Integrated honeycomb to avoid glare.
AX5-SN

CHARGING

AX2 PIXELBAR

Astera's Wireless PixelBar is a linear wash fixture. Each of its LEDs can be individually addressed and offers ultra-high color rendering, digital color calibration and a native 21° beam. Thanks to its smart stands, hanging bracket, connectable endcaps and the integrated Airline Track it can be quickly assembled in numerous ways and is suitable for a wide variety of applications such as concert/touring, corporate events, TV etc.

Available in 2 sizes 50cm with 8x10W and 100cm with 16x10W (20" and 40")

- Max. 20h
- App
- Wireless DMX
- IP65

160W RGBMintAmber

80W RGBMintAmber

Removable feet

Multi-functional feet with quick-release clamp

BarConnect+

for connecting several AX2. With IR-Module for easy communication

Barndoors

Control the shape of the light

Airline Track

Airline Track at back and bottom to attach mounting tools

ACCESSORIES

TrackPin

5/8" BabyPin, connects to all Astera products with airline track.
AX-TP

FlyBar

Sturdy rigging accessory for hanging a string of connected AX2s from a single point.
AX2-FB

2pc included

TrackHanger

Solid accessory for rigging and safety wires. Attaches to Astera fixtures with Airline track.
AX-TH

Barndoor for AX2

Acts as glare shield and controls the AX2 beam.
AX2-100-BD / AX2-50-BD

JumpCable for AX2

Hybrid cable that combines power in+out and data in+out into 1 cable.
AX-JC

Filter 30°

NYX BULB

The color-tunable LED bulb for professional film, stage and event productions. Not bigger than a normal LED bulb, it contains a CRMX receiver as well as RF and Bluetooth modules for the AsteraApp. It can be powered via E26/E27 thread or with a standard power bank and thanks to its Titan LED engine it displays precise colors and white tones with ultra-high CRI and TLCI.

App

Wireless DMX

IP44

Dual Power Input

Power through E27 / E26 / B22 AC thread or external (standard power bank or NYX PowerStation)

PowerStation for NYX Bulb

Battery pack and remote display to power and program NYX Bulb. Attach NYX Bulb via lamp socket and connect mounting accessories to the integrated Airline Tracks.

ACCESSORIES

included

USB DC Cable

Short cable to power your NYX Bulb from a 5-18VDC power source, e.g. a standard power bank.
FP5-USBC

TrackPin

5/8" BabyPin, connects to all Astera products with airline track.
AX-TP

PowerStation Hanger

Ring with attaches to PowerStation to suspend or secure it.
FP5-PSH

CupBouncer

Attach to NYX Bulb via suction cup and control the light by bouncing it back.
FP5-CPB

D-TAB SplitCable

Power up to 8 NYX Bulbs from one V-mount battery with D-tab socket.
FP5-DTSC

Extension Cable for NYX Bulb

Add 1.5m of cable length to the PowerStation if you need to place a NYX Bulb further away.
FP5-EXC

LampSocket

Dummy socket which attaches a NYX Bulb to a PowerStation without powering it.
FP5-E27S

included with PowerStation

NYX BULB KIT

414 x 334 x 130 mm
16.3 x 13.1 x 5.1 inches
5.3 kg/11.7 lbs (full weight)
FP5-SET

8x NYX Bulb

POWERSTATION KIT

520 x 400 x 140 mm
20.5 x 15.7 x 5.5 inches
8.5 kg/18.7 lbs (full weight)
FP5-PS-SET

8x PowerStation

Connect the 8 PowerStations with the 8 NYX Bulbs for easy programming.

POWER, CHARGING, CONNECTIVITY

TITAN POWERBOX

TITAN POWERBOX FP1-PWB

Power supply for charging 8 Titan Tubes or Helios Tubes at the same time. Also works as a converter for DMX, Art-NET and sACN. Including 1 PowerCon True1 AC cable and 8 short DC charging cables.

POWERBOX 2X86

POWERBOX 2X86 PWB-2-86

Charge or install 8 PixelBricks. Also allows wired data transfer from DMX, Artnet and sACN sources. Comes with PowerCon True1 AC cable and 8 short DC charging cables. Longer Power/Data Combination cables sold separately.

DATALINK

DATALINK FP3-DTL

Required device to send wired DMX to Hyperion Tube. Also useful for Titan Tube and Helios Tube if no Titan PowerBox is available or to work with multiple universes on one PowerBox.
